

Helicopter Adventure to 1,000 ft Falls & Victoria Peak

Helicopter Adventure to 1,000 ft Falls & Victoria Peak

(Adventure departs from Cisco Base, Belize City. Total Flight Time 1.6 hrs approximate)

Your adventure will begin once you board your private helicopter at Cisco Base. This unique adventure will take you to see the Mayan Mountain Rivers, Valleys and Waterfalls among others. After leaving the heliport, you will follow the Burdon Canal which was built to provide an inland waterway for fresh farm produce from the fertile Sibun River Valley to Belize City in the 1920's. You will then head south-west down north of the Northern Lagoon and fly over the Sibun River one of Belize's major river systems with many twists and turns that approximate 100 miles of actual river. Then it's out to the green pastures of the beautiful forest of Belize. Fly over the small but famous bathing spots such as Freetown Sibun, Butcher Burns, Cedar Bank and Gracy Rock Bank. You will then fly over Caves Branch where you will be able to see the beauty of the river as it flows through the cave system. This area encompasses 58,000 acres that are situated beneath a 100 ft rainforest canopy and is bordered by turquoise waters of Caves Branch River. Ahead of Caves Branch lays deep forest of the Mountain Pine Ridge.

Not long after your eyes start to dazzle at the sparkling water that runs from the largest waterfall in Belize and in Central America; called 1000 ft Falls. This has recently been proclaimed a National Monument and has been opened to the public. Even though the name suggest otherwise, this waterfall is closer to 1600 feet. Around this area there are many different beautiful and breathtaking waterfalls.

After viewing all these amazing waterfalls, you will head up across the Mountain Pine Ridge area to have a bird's eye view at the second-highest elevation in Belize, Victoria Peak.

This mountain is 3,675 feet high and is surrounded by the tropical rainforest. To reach the peak of this mountain by ground the duration time is approximately 4 to 5 days long. Victoria Peak is located on the remote northern boundary of the Cockscomb Basin Wildlife Sanctuary which is world renowned for being the first Jaguar Reserve. The tour then heads north across the Stann Creek District and Hummingbird highway.

You will then fly across the Sibun Forest Reserve and finally the Southern and Northern Lagoons as you head for your final landing at Cisco Base, Belize City.
