

# Helicopter Transfer to San Pedro, Ambergris Caye

## Amazing Helicopter Transfer to San Pedro, Ambergris Caye

San Pedro is located just off the southern shore of Ambergris Caye and what better way to get there than by a fun and exciting site-seeing helicopter ride to the island. There are two different routes to choose from in the transfer from the Belize International Airport to the resort. The options are as follows:

### Option 1: Direct Route to San Pedro (Blue Route)

Upon leaving from the Belize International Airport, you go directly into the breathtaking view of the Caribbean Sea. Flying through the air you will pass over a few small cayes such as the 'Hen & Chicken' Caye. Enjoy the scenery of the open blue waters just breathing in the fresh air. Further along, you will pass over Congrejo Caye, and southern Ambergris Caye before landing at the final destination at San Pedro.

### Option 2: Reef Flight Transfer to San Pedro (Red Route)

After leaving from the Belize International Airport, the flight takes you directly to the exotic view of the world's second largest reef, Belize's Barrier Reef. See the small cayes along the reef as they drench in the midst of the deep blue waters, such as Coffee Caye, Montego Caye and Long Caye. Following the path of the reef, be amazed at the different shades of colors of the Reef and look closely as you might see a manatee, dolphin or shark in the waters. You will then fly over the golf course at Caye Chapel.

Then, it's one thing crossing over the split of Caye Caulker by land but imagine viewing it from above seeing all the formation of how the hurricane just divided the caye into two separate parts. Further down the path of the Reef you will be able to see the most popular snorkeling site in Belize, Hol Chan Marine Reserve. The flight continues further along the reef where you can be dazzled by the water view that borders our Reef until arriving to the final destination of San Pedro.
